

Carolina Golf News Today

November 14, 2010

Financial Assistance

ATTENTION GOLF COACHES: In this perilous economy that we are faced with School Board funding is under great scrutiny. In some cases programs are being cut and in the worst cases schools are being closed. Golf is not a revenue generator thus golf programs are susceptible. If your golf team is in need of money the Carolina Golf News Today can help.

By the end of 2011 all high school and middle schools that have a golf program will have their own page in the CGNT. It is on these pages that sponsorship advertising can be sold by your school. The mechanics of selling this sponsorship advertising is the same as selling ads in your school's year books.

Your school will earn 60% of any sponsorship ad sold. The other 40% is sent to the CGNT. All ads will run for 12 months from the date of appearance in the CGNT.

Once a sponsorship ad is sold the CGNT will contact the advertiser to work with them on the ad construction thus reliving your school of that responsibility.
